

National Conference on

Sustainable and Climate Resilient Agroecosystems: Innovations and Policy Framework

(April, 28-30, 2026 | SKUAST-Jammu, Chatha)

Organizers

Indian Ecological Society, Jammu & Kashmir Chapters

in collaboration with

Sher-e-Kashmir University of Agricultural Sciences & Technology of Jammu (SKUAST-Jammu) and
Sher-e-Kashmir University of Agricultural Sciences & Technology of Kashmir (SKUAST-Kashmir)

ABOUT THE CONFERENCE

The National Conference aims to tackle the critical challenges posed by climate change to India's agriculture. The conference will bring together scientists, policymakers, and practitioners to share innovative strategies, climate-smart crop production techniques, and sustainable management practices. It will also focus on developing actionable policy frameworks to enhance agricultural resilience, ensure food security, and promote sustainable agroecosystems across India's diverse agro-climatic zones.

ABOUT THE SOCIETY

The Indian Ecological Society (IES), established in 1974 by Dr. S.S. Atwal at Punjab Agricultural University, Ludhiana, is a premier scientific organization devoted to advancing ecological research and sustainable development. It publishes the Indian Journal of Ecology, a peer-reviewed journal of national and international repute. Over the years, IES has organized numerous national and international conferences addressing critical issues of ecology, agriculture, and environmental sustainability. The society serves as a vibrant platform for scientists, academicians, and policymakers to exchange ideas and promote eco-friendly technologies. Headquartered at PAU Ludhiana, IES continues to play a leading role in fostering ecological awareness and research across India.

OBJECTIVE

To provide a national platform for scientists, policymakers, industry, and stakeholders to share innovations, assess climate change impacts, adaptation and foster collaborative strategies-integrating technologies, policies, and youth-driven initiatives-for building sustainable and climate-resilient agroecosystems across India.

Patrons

Dr. B.N. Tripathi

Vice Chancellor, SKUAST-Jammu

Dr. Nazir A Ganai

Vice Chancellor, SKUAST-Kashmir

TOPICS

1. Climate-Smart Breeding and Production Systems for Resilient Agriculture
2. Soil, Water and Natural Resource Management for Sustainable Agroecosystems
3. Livestock, Fodder Systems, Fisheries and Allied Sectors under Climate Change
4. Agro-biodiversity, Horticulture, Agroforestry and Ecosystem Services
5. Digital Agriculture, AI, and Emerging Technologies for Climate Resilience
6. Integrating Indigenous Knowledge and Innovative Extension Services for Climate Resilient Agriculture
7. Innovations, Policy and Partnerships for Climate-Resilient Agriculture
8. Market Linkages, Agri-Entrepreneurship, Startups and Sustainable Food Systems

**Registration:
Starts from
15th November,
2025**

Contact

Organizing Secretaries

Dr. Syed Sheraz Mahdi

Associate Director Research, ACRA, SKUAST-Jammu and
General Secretary, IES, J&K State Chapter
M: +91 7889649984, Email: cccjk2026@gmail.com

Dr. Rakesh Sharma

Professor, Agricultural Extension Education, SKUAST-Jammu and
Treasurer, IES, J&K State Chapter
M: +91 9419145253, Email: cccjk2026@gmail.com
